

Product: Tremella Fuciformis Polysaccharide

Items	Specification
Appearance	White or almost white powder or granule
Odor	Slight characteristic odor or odorless
Molish Reaction	Amaranth or peachblow
Glucuronic acid	≥18.0%
Assay of total saccharide	≥90.0%
pH(0.5% aq. sol.,25℃)	5.5~8.0
Transmittance (0.1% aq. sol., 25℃)	T _{550nm} ≥99.0%
Loss on Drying	≤10.0%
Residue on ignition	≤10.0%
Molecular weight	Measured value
Dynamic viscosity (0.5%aq.sol.,25℃,2/6r pm)	Measured value
Protein	≤0.1%
Heavy metal(as Pb)	≤20mg.kg
Bacteria counts	≤200cfu/g
Molds & Yeasts	≤100cfu/g
Staphylococcus aureus	Negative/g
Pseudomonas aeruginosa	Negative/g
Product Benefits	Cosmetics raw materials, mainly used for cream, lotion, lotion, essence, gel, facial mask, facial cleanser, mu Bath dew, shampoo, conditioner, etc.Utility is related to the product molecular weight size, where the polymers perform well in the Luicity and moisturizing, low molecules for good transdermal absorption and deep moisturizing effect.
Packing	100g / bottle, 1kg / bag or packed per customer request.
Storage	Cover the light, closed, cool and dark place preservation.
Shelf Life	24 months
